a) infrared frequency b) radio frequency c) audio frequency d) microwave frequency
7. DIX stands for .
a) Digital Inner and Xerox b) duplicate, Inner and Xerox
c) Digital, Intel and Xerox d) Duplicate, Intel and Xerox
8. In C $num/=2$ is:
a) $num/num=2$ b) $num/2=num$ c) $num/2=0$ d) $num=num/2$
9. The source code created by the programmer:
a) file b) program c) system file d) pseudocode
10. The shortcut key for moving to the beginning of the WORD document:
a) Ctrl+shift+home b) Ctrl+home c) Shift+home d) Alt+home
11. Which register keeps the track of the next instruction to be executed?
a) program counter b) instruction register c) input/output register d) language translator
12. POL is:
a) low level language b) assembly language c) high level language d) language translator
13. The voltage, current, resistance can be measured using:
a) voltmeter b) ammeter c) multimeter d) resistor
14. In Excel the shortcut key for open research task pane to search through reference material:
a) alt+click b) ctrl+click c) shift+click d) ctrl+alt+click
15. The shortcut key for viewing macros in excel is:
a) alt+f5 b) alt+f6 c) alt+f7 d) alt+f8
16. Which of the following is a private network?
a) internet b) Arpanet c) intranet d) extranet
17. Hyperlink is:
a) object b) homepage c) webpage d) website
18. Lycos.com is :
a) web browser b) search engine c) hyperlink d) mail id
19. The extension of HTML file is:
a) .hml b) .tml c) .htm d) .htl

20.HTML was introduced in:

- a)1987 b)1988 c)1989 d)1990

21.In C# define is.

- a)pre processor compiler directive b)header file c)delimiter d)library function

22.In C the delay () is used to:

- a)temporarily stop an execution b)stop execution in a specific interval
c)stop an execution d)execution continues after a break

23.Office Access 2007 provides _____ different data types.

- a)4 b)8 c)10 d)255

24.Fact(4) returns:

- a)4 b)10 c)16 d)24

25.In excel banded rows are presente in:

- a)Format menu b)Table menu c)Data validation d)Text to colums

26.Which chart illustrate comparison among individual data items?

- a)Pie b)Column c)Bar d)Area

27.Documentation is:

- a)Mesh topology b)Ring topology c)Graph topology d)Tree topology

28.Documentation is:

- a)The process of checking data in a program
b)The process of providing sufficient information in a peograma to understand its working
c)The process of preparing codes d)The process of preparing object program

29.The extension in the URL, in addition suffixes, the extra code 'de' stands for:

- a)Canada b)United Kingdom c)Germany d)Taiwan

30.In VB, modules are saved with extension:

- a).BAS b).mdl c).mod d).mls

31.In VB methods are:

- a)code b)object c)functions d)properties

32.Implicit conversion is performed by:

- a)user b)compiler c)interpreter d)processor

33.Magnetic tape is: a)visual aid b)audio aid c)audio visual aid d)communication aid

34.The minimum number that can be represented by 8 bit is:
